I was not planning on starting one, as far as I know they have recently exceeded the AL after NJ asked them to start from the beginning on the Rule, but I am not aware of any violations.

NJDEP program staff have been the lead on this to my knowledge, I have not discussed with NJDEP enforcement

Hi Pete and Walter - I don't know if you have heard, but NRDC plans to give us a 60-day notice to sue today, over lead in Newark's drinking water. We won't know 'til we see it what they're alleging, but assume it's violations of LCR and maybe allegation that DEP is failing to enforce. Just wanted you to have a heads up.
